

150m SFP Transceiver

Descriptions:

4G Fibre Channel SFP 850nm 150m DOM Transceiver Module (MMF, 850nm, 150m, LC, DOM);

SFP Transceiver module is more and more widely used in telecommunication and data transmission. Due to its compact design, convenient operation, flexible dispositions, it is much greatly reducing operation cost and enhancing the effect. Optico is a professional manufacturer for optical SFP transceiver module. Due to its high quality, competitive price and best service, products by OPTICO is well-received by customers.

Characteristics:

Compact design.

Good stability performance and excellent compatibility.

Cost effective.

Applications:

Applications in telecommunications;

Data communications;

Video optical transceiver;

Base station

Tunnel traffic monitoring

Product Parameters:

100M SFP Transceiver

Genuine	AFBR-57R5AP	Vendor Name	OPTICO
Form Type	SFP	Max Data Rate	4.25Gbps
Wavelength	850nm	Cable Distance	150m @ 4.25Gbps
Interface	LC duplex	Optical Components	VCSEL 850nm
Cable Type	MMF	DOM Support	Yes
TX Power	-9~ 0dBm	Receiver Sensitivity	< -20dBm
Commercial Temperature Range	0 to 70°C (32 to 158°F)	Protocols	MSA Compliant

Advantages:

- 1, Competitive prices: We are manufacturer wholesaling to customers directly. There is no middleman cost. So we can offer high quality products while keeping price advantage.
- 2, Fast production and delivery time: Usually within 5~8 days. All our products are brand new, not stock products, avoiding problems caused by storage.
- 4, Considerate services: professional technical support, good service for pre-sale and after-sales.

FAQ:

1, Q: Are you manufacturer? Where is your factory?

A: Yes, we are manufacturer. Our factory is in Shenzhen.

2, Q: What is your production capacity?

A: Usually 100,000 pcs/month. Of course, we can enlarge the production capacity according to your order requirement.

3, Q: What is the production lead time?

A: Usually within 7 working days after deposit. All of our products are brand new ones, not stocks. In this way, we can make sure the quality, performance, appearance and reliability. And no faults which maybe caused during long-term stock.

Quality and standards are the foundation of OPTICO. We are dedicated to providing customers with outstanding, standards-compliant products and services. OPTICO has passed many quality system verification, like CE, RoHS, FCC, etc. Welcome customers from all over the world to inquire and cooperate with us. .
